

Confetti

Hand made layered needlepoint fiber

Confetti thread can add a new dimension of texture and color to your stitching! Confetti "Ice" colors (#101– 125) are softly shaded space-dyed or solid metallics inside a white nylon tube for a frosted finish. * indicates a shade with a solid color metallic. "Smoke" colors have the same metallics glinting through black. Confetti "Colors" (#201– 256) are two-layer colors with multicolored or solid color metallics showing through a colored nylon. "Crystal" Colors (#301- 316) are tinted nylon with sparkling crystal metallic. Use Confetti for any stitches on 12-14 count needlepoint canvas or for longer stitches on 18 count canvas to create a subtle, airbrushed look. * Indicates a solid color metallic.
